A Sight to See – May 12, 2025

It will not be long before PIT calls its new terminal, parking structure and roadways home. Now at 90 percent completion, the modernization project continues to receive polish and finishes – signs of a truly Transformed PIT.

Construction crews have continued building these new airport facilities while our team members operate PIT at full capacity.

That is not a small feat – it is a testament to the innovation and resiliency we have built into everything we do at the ACAA.
